*College-specific Review Process

¹ Some program reviews were delayed due to the COVID-19 pandemic and budget constraints for the 2020-2021 academic year.

² The new School of Animal Sciences includes two units: (1) Animal and Poultry Sciences and (2) Dairy Science. Both units were last reviewed in Spring 2019.

³ The School of Plant and Environmental Sciences brings together programs from (1) Crop and Soil Environmental Sciences, (2) Horticulture, and (3) Plant Pathology, Physiology, and Weed Science. Crop and Soil Environmental Sciences was last reviewed in Fall 2016. The most recent review for Horticulture was in Spring 2011. The next scheduled review for Horticulture was delayed due to the creation of the School of Plant and Environmental Sciences. The last review for Plant Pathology, Physiology, and Weed Science was completed in Fall 2016.

⁴ The Academy of Integrated Science (AIS) offers B.S. programs in Computational Modeling and Data Analytics, Nanoscience, and Systems Biology; the Integrated Science Curriculum; and a minor in Science, Technology, and Law.

⁵ The Graduate School will be the point of contact for each Inter College program.
